December 2023 - Present (2 years 11 months)

Engineering Manager
May 2021 - November 2023 (2 years 7 months)
Bengaluru, Karnataka, India

Dell
11 years 10 months

Senior Engineering Manager
October 2017 - May 2021 (3 years 8 months)
Bangalore

Created leader led, 30-member multi-functional team inclusive of Product manager, UX design and engineering team spanning all technology stacks

Patents

Message Processing Using Dynamic Load Balancing Queues in a Messaging System

like UI, API, database and DevOps accelerating team decisions to deliver the products faster

Order Visibility Platform

• Created a proposal for modernization of Order tracking and visibility to business leadership and won a sponsor of $1.2 Million.
• Conducted user interviews, UX design reviews with the customer care agents and came up with a vision for order visibility platform
• Created technical design for backend integrations across Sales, Order Management, Manufacturing Logistics applications.
• Conceptualized Idea board to engage, train and interact with the users actively.
• Arranged for appropriate technical and design-based trainings for the team to help accelerate the development
• Enabled developers to adopt Pivotal Cloud Foundry and perform Pilot testing with canary releases
• Conducted product demo's and over saw user adoption over a period of 6 months. Currently there are about 26K users.

CSAT Improvements

• Headed the $2 Million transformation Self-Serve initiative working directly with Customer care business
• Created strategy around improving online self-serve experience for our customers. Built capabilities such as online cancellations, online returns and intuitive order status in collaboration with customer care over 1.5 years leading to 15% reduction in customer care calls.
• Partnered with Channel business team to co-ordinate with multiple channel partners to implement Channel Order tracker to provide live order tracking and visibility for our Channel partners. Worked on onboarding 80K channel partners on the COT portal.

IT Manager

January 2017 - October 2017 (10 months)
Bengaluru, Karnataka, India

Customer Communications Modernization

• Created strategy for rationalization and modernization of Customer communication applications across dell.
• Led a team of 20 Engineers to drive the creation of Customer communication engine and designer products.

• Adapted innovative migration strategy for over 500+ email communications. This led to retirement of 5 legacy monolithic CFO applications and cost savings of over $2.5 Million YoY.

Developer productivity improvements
• Gitlab adoption for source control and automated deployments across the organization
• Contributed to creating automated smoke testing and regression testing frameworks for API testing using Postman
• Mentoring and Upskilling team members to adopt latest technologies and created many opportunities to implement them within the existing products

Software Development Sr Advisor
August 2015 - December 2016 (1 year 5 months)
Bengaluru, Karnataka, India

Creating SOA based reusable, loosely coupled, abstracted and autonomous services to integrate the Order Management system with the Factory, Finance,Sales and Services systems.

Frictionless order download to Factory:
Solution Architecture and Development for Sales, to Order management to Factory Frictionless order download Integrations

Online Order Cancellations & self-serve capabilities
Solution Architecture and Lead developer on enabling Online Order Cancellations, Order Updates from support and sales tools

Lead Agile Adoption
Scrum master for 2 feature teams during sprint planning, execution and adoption.
Working with Program management to implement agile KPI measures like Velocity, burn-up charts and reports

Software Development Advisor
August 2014 - August 2015 (1 year 1 month)
Bengaluru, Karnataka, India

Dell's O365 enablement needed Dell to implement a Flexible Billing capability using Oracle BRM.
I worked on rapidly prototyping new data integration capabilities to confirm integration feasibility into existing systems.

Collaborated with cross-functional development team members to analyze potential system solutions to enable Customer Integrations and Service Account/Bill Plan Integrations.

Evolved design for subscription creation and subscription billing integrations between Oracle BRM, Order management, Customer Master and Account receivables system.

Software Development Sr Analyst
August 2013 - August 2014 (1 year 1 month)

Creating SOA based reusable, loosely coupled, abstracted and autonomous services to integrate the OrderManagement system with the Factory, Finance,Sales and Services systems.

Software Development Analyst
August 2011 - August 2013 (2 years 1 month)

As part of the GEARS Replacement program i was part of the integration team responsible for migrating Invoicing capabilities to Oracle EBS platform.

Researched, designed and implemented Transformations of Customer data models between legacy Dell customer models to OracleApps TCA model.

Developed integrations adhering to SOA based design principles and Oracle AIA design patterns.
Collaborated with cross-functional development team members to analyze potential system solutions based on evolving client requirements.

Software Development Engineer
August 2009 - July 2011 (2 years)

Joined the Dell International Services... For the Enterprise Architecture Department..

Dell and Perot's merger the Enterprise solutions program(ESP) migrated Legacy Perot Professional Services and Outsourcing (Dell and Perot) business process to Dell financial and project management systems.

While collaborating with business partners on all stages of systems development lifecycle, from requirement gathering to production releases, i was primarily responsible for developing integrations in Aqualogic service bus between Dell invoicing AR and Perot's Project accounting (PA) applications.

IBM India Software Labs

Intern

March 2009 - June 2009 (4 months)

Worked as part of IBM-ISL DB2 NSE team has an Intern for 3 months. The Internship was based on testing the NSE components, verifying its functionality and installation.

Education

Bangalore University

BE, Computer Science · (2005 - 2009)

Pre University College National College

PUC, Biology · (2001 - 2003)
